Mohammad Shebli

Business Administration - Software Developer

Throughout my degree, I successfully balanced my studies with work and other commitments, demonstrating that I am self-motivated, organized, and capable of working under pressure.
I have a clear, logical mind, a practical approach to problem solving, and a strong desire to see things through to completion.
I enjoy working independently or in groups.
In summary, I am dependable, trustworthy, hardworking, and eager to learn new technologies in order to remain up-to-date.

Work History

2023-03 - 2023-07

Frontend Internship Student

Foothill Technology Solutions, Nablus
I spent a year studying the fundamentals of software development, such as learning object-oriented programming and mastering data structures and algorithms, before enrolling in the Foothill internship program. During the internship, the program required me to master the JavaScript language and ReactJs through a supervised learning map and a variety of tasks and projects listed on my GitHub page as follows: Https://github.com/shebli91

Online Courses : Software Development

Udemy - Online
I began learning software development between 2021 and 2023, and my process in the development field included three paths. Throughout this time, I took a lot of courses in the following order:

Udemy: Udemy.com is an online academy that offers a variety of highly rated courses ranging from beginner to expert (java, object-oriented programming, Data Structure and Algorithms, HTML, CSS)

Gaza Sky Geeks: I successfully completed the Amazon Web Services (AWS Certified Cloud Practitioner) course.
